

# 'A Day in the Life' survey being conducted by York College for YCCAR

Students from Dr. Polk's Research Methods classes are conducting a survey entitled "A Day In The Life."

The goal of the survey is to document the everyday experiences of York Countians relating to intolerance affecting quality of life for some residents. This information will be useful to help formulate a strategy for the creation of a county-wide human relations commission. YCCAR is partnering with several community organizations to conduct a survey with Polk- Lepson relating to the business community. More information about these projects for 2009 will follow.

Hello! I am Haley VanGorder, this year's newsletter Editor. I'm a senior at Central York High School, where I am very active in the journalism community. As a dedicated and determined journalist, I am the Opinion Editor of our school's paper, *The Prowler*, and Editor-in-Chief of our school's entertainment magazine, *On The Prowl*. I was very excited to learn that I was chosen to be the Editor of YCCAR's newsletter, because I know how great of an impact the organization has on the community. I plan to spend the rest of my term as Editor helping to create the most appealing and informational newsletter I can. If you have any feedback or ideas, feel free to e-mail me!

**Adam Tran, Creator of YCCAR Website:** He has been a wonderful blessing to YCCAR. Adam has a passion for computers and giving back to the community. Adam updates the YCCAR website and was very instrumental for the conversion to [WWW.YCCARDIVERSITY.ORG](http://WWW.YCCARDIVERSITY.ORG)!
